

Standee Poster Day1: 9th November (Thu)

Topic	Title	Presenter
Breast Cancer	Parameter Dosimetric analysis of breast irradiation between conformal techniques, field-in-field, and simultaneous integrated boost	Suherman Hadisaputro
Breast Cancer	Treatment and cosmetic results in Indonesian woman with T1-2N0 breast cancer treated with breast-conserving treatment	Rafiq Sulisty Nugroho
Breast Cancer	Comparative effectiveness vs cost effectiveness of using adjuvant Tamoxifen vs switching to Letrozole once into menopause- In the perspective of low resource countries.	ANM Kaiser Anam
Breast Cancer	Recurrence pattern and associated risk factors for recurrence of breast cancer	Shahnaz Aliya
Cancer Prevention, Hereditary, Genetics and Epidemiology	Cancer Epidemiology Profile Based on Hospital Based Cancer Registry at Cipto Mangunkusumo National General Hospital year 2008-2013	Ngakan Putu Daksa Ganapati
Central Nervous System Tumors	The Application of Recursive Partitioning Analysis, Graded Prognostic Assessment and Basic Score for Brain Metastases as Prognostic Indices among Patients with Brain Metastases Treated with Radiotherapy at Departement of Radiotherapy RSCM 2012-2014	Arry Setyawan
Central Nervous System Tumors	Haematological outcome of CCRT with Temozolomide versus RT Alone in Patients with High Grade Gliomas	Md. Mamun Or Rasheed
Head and Neck Cancer	Study Design and Early Result of Phase I Study to Evaluate Feasibility of Stereotactic Ablative Radiotherapy for Early Stage Glottic Cancer	Chan Woo Wee
Head and Neck Cancer	Neoadjuvant chemotherapy plus concurrent chemoradiation versus concurrent chemoradiation followed by adjuvant chemotherapy for the treatment of nasopharyngeal carcinoma: a retrospective study	Panchalee Phakoetsuk
Head and Neck Cancer	Effect of External Radiation to the Formation of Micronucleus in Buccal Mucosa's Epithelial Basal Cell in Head and Neck Cancer Patients	Arundito Widikusumo
Head and Neck Cancer	Approaches to minimize post RT complications in patients with Head and Neck cancer	Sabiha Sal Sabil
Head and Neck Cancer	Why altered fractionation have not gained popularity in Bangladesh	Nazirum Mubin
Hepatobiliary and Pancreatic Cancer	A 60 years old male presenting with Abdominal pain, Dyspnoea and Limb weakness	Muhammad Abdullah-Al Noman

Standee Poster Day2: 10th November (Fri)

Topic	Title	Presenter
Genitourinary Cancer	Prostate specific antigen nadir within 12 months as an early surrogate marker of biochemical failure and distant metastasis after low-dose-rate brachytherapy for localized prostate cancer	Shuichi Nishimura
Genitourinary Cancer	Direct monitoring of intraprostatic motion via Intrafraction Motion Management for Prostate hypofractionated VMAT irradiation: First Clinical Results in Malaysia	Stephanie Loo
Gynecologic Cancer	The effect of anti egfr humanized monoclonal antibody to cellular immunity regulation in uterine cervical cancer therapy	Arie Munandar
Gynecologic Cancer	The clinical outcomes of cervical cancer patients with para-aortic lymph nodes metastasis treated by definitive extended field intensity-modulated radiation therapy	Liu Xiaoliang
Gynecologic Cancer	The clinical outcomes of cervical cancer patients treated by prophylactic extended field intensity-modulated radiation therapy	Liu Xiaoliang

Gynecologic Cancer	The efficacy and toxicity of image-guided intensity modulated radiation therapy combined with high dose brachytherapy for FIGO stage IIB cervical cancer	Wang Weiping
Gynecologic Cancer	Dose-Volume Relationship of Urinary Bladder to Organs At Risk in Image-Guided Brachytherapy for Cancer of the Uterine Cervix	Dorothy Faye Tan
Gynecologic Cancer	A dosimetric comparison of fixed-field intensity-modulated radiotherapy, rapidarc therapy and helical tomotherapy for extended-field irradiation in cervical cancer	Wang Dunhuang
Gynecologic Cancer	Pretreatment neutrophil: lymphocyte ratio as a predictor of recurrence in locally advanced cervical cancer: preliminary study.	Henry Kodrat
Gynecologic Cancer	Cervical Cancer Screening : Bangladesh Perspective	Md. Golam Zel Asmaul Husna
Gynecologic Cancer	Radiotherapy for Early Stage Endometrial Cancer, A Review of Literature	Kartika Erida Brohet
Lung Cancer	Lung density change after SABR: A comparative study between tri-Co-60 magnetic resonance-guided system and linear accelerator	Eunji Kim
Lung Cancer	Prospective Study of Sequential Ultra-Low then Standard Dose 18F-FDG PET/CT Scans for Lung Lesion Detectability	Ivan Tham

Poster presentation:

The presentation has to be put up by about 8.00 am and removed by 4.00 pm on the days specified in the exhibition hall.

e-Poster		
	Title	Presenter
Genitourinary Cancer	Multi-institutional clinical studies of chemoradiotherapy for cervical cancer among Asian countries under the framework of Forum for Nuclear Cooperation in Asia (FNCA)	Masaru Wakatsuki
Breast Cancer	Clinical advantage in post-mastectomy radiation therapy without using a bolus on chest wall	Shintaro Shiba
Advanced Technology	Salvage treatment for neck lymph node recurrences after radiotherapy using CyberKnife radiosurgery or stereotactic radiotherapy	Daijiro Kobayashi
Advanced Technology	Long time course of radiation toxicity after 78Gy intensity-modulated radiotherapy for high-risk prostate cancer: 10-years follow-up of clinical experience at Kyoto University	Haruo Inokuchi
Epidemiology	Cancer Profile in Jakarta Province Region 2008-2012: Based on Data at Cipto Mangunkusumo Hospital as Controlling Center for Cancer Registration of Jakarta Province	Wahyudi Nur Hidayat
