

Save the date!  
see you in Bali, The Island of Gods

## The Captivating Bali

Bali is one of the most popular destinations in the world. For few years, it is awarded as the world best island by The International Travel Magazine. However, not many people truly know the depth and uniqueness of its culture. Life in Bali is always related to Tri Hita Karana or a tripartite concept regarding the spiritual relationship between human, God and their environment.

The rapid growth of development in tourism has a big influence on Balinese tradition and lifestyle, but interestingly, Balinese culture is still as what is was, growing along with the globalization. This is why Bali is so special and different from other tourist destination.

## 3<sup>rd</sup> Federation of Asian Organizations for Radiation Oncology (FARO) Annual Meeting

Sharing • Empowering • Strengthening

Bali, Indonesia  
September 6<sup>th</sup> - 8<sup>th</sup>, 2018

## Greetings from the President and Secretary General of FARO

Dear Colleagues & Friends,

Warmest Greetings from the Organizing Committee of 3<sup>rd</sup> FARO Meeting!

It is such a great pleasure and honour to extend our cordial invitation for you to attend the 3<sup>rd</sup> Meeting of Federation of Asian Organizations for Radiation Oncology (FARO). Despite being a new organization with 12 participating radiation oncology societies from 12 different nations, FARO continues to grow and empower the role of radiation oncologist in Asia.

The theme of our 3<sup>rd</sup> meeting is "Sharing, Empowering and Strengthening". It reflects our need to share knowledge, empower and increase the capacity of Asian resources towards comprehensive cancer treatment to find the optimal result for the patients.

We aim to have a comprehensive scientific program, involving Asian and International leading experts in their respective fields. The program has been designed with high scientific standards while also allowing participants to experience the beauty of Bali, The Island of Gods.

In addition to the scientific session, extensive program including leadership development program, exhibition and cultural program are also available. So please kindly mark your calendar for the next 3<sup>rd</sup> FARO meeting in Bali, 6<sup>th</sup> - 8<sup>th</sup> September 2018.

We look forward to see you in the beautiful Island of Bali.

Sincerely,

**Prof. Soehartati Gondhowiardjo, MD, PhD**  
The President of FARO

Dear Colleagues & Friends,

FARO was founded on November 3<sup>rd</sup>, 2014 to build a strong union of national radiation oncology societies in Asia and ultimately to improve the healthcare for the patients by cooperation in research, education, and clinical practice of radiation therapy among the member societies.

The current 3<sup>rd</sup> FARO Meeting in Bali is very important; it is a great opportunity to develop and strengthen our young organization through our concerted efforts as professionals in the region to pave the way towards steady development in the future.

With the strong and energetic leadership of Prof. Soehartati Gondhowiardjo as the current President of FARO, I greatly expect this meeting to be fruitful, successful and at the same time meaningful for all Asian radiation oncologist and patients who suffering from cancer.

I am very much looking forward to meeting all Asian Radiation Oncologists in Bali.

Best regards,

**Prof. Takashi Nakano, MD, PhD**  
The Secretary General of FARO

## Plenary Lectures

- Current issue in cervical cancer radiotherapy
- Advanced technology in breast cancer radiotherapy
- Paradigm shift in NPC radiotherapy toward better outcome and quality of life
- Quality assurance for advanced technology in radiotherapy

## Updating New Insight in Radiation Oncology Technology

- Cognitive function preservation in CNS radiotherapy
- Intensity modulated radiotherapy (IMRT) in head and neck cancer: What's next?
- Current update for radiotherapy in lung cancer
- Timing for surgery and radiotherapy in rectal cancer
- The emerging role of Stereotactic Ablative Body Radiotherapy (SABR) in management of HCC
- The role of SABR in Oligometastatic disease
- Controversies of dose fractionation scheme in prostate cancer: Which one is the best?
- Image-guide brachytherapy: toward more conformal brachytherapy
- Toward personalized radiotherapy in cancer treatment

## Towards a comprehensive cancer care and other issues

- Palliative care in cancer treatment
- Nutritional support for cancer patients
- Health economics perspective: Is radiotherapy indeed a cost effective treatment?
- Writing for publication: how to get your paper accepted in international journal?

## Contouring class & Treatment planning competition\*

- Contouring class : Cervical Cancer & NPC
- Treatment planning competition (Medical Physicist)

\*limited seat available

## FARO Special Program\*\*

Leadership Development Program

\*\*limited seat, nominated by FARO member countries, FARO travel grants are available
